*To my mother, and to the memory of my father, for their sacrifices, belief,
and constant support throughout the years. To my amazing sisters,
Ameedat and Aminat, for being a continuous source of joy and happiness.
To my uncle, Bako, for his continuous support over the years. To my best
friends, Abdulrahman and Amina, for always being there.*

– Abdulazeez Abdulazeez Adeshina

About the author

Abdulazeer Abdulazeer Adeshina is a skilled Python developer, backend software engineer, and technical writer, with a wide range of technical skill sets in his arsenal. His background has led him to build command-line applications, backend applications in FastAPI, and algorithm-based treasure-hunting tools. He also enjoys teaching Python and solving mathematical-oriented problems through his blog. Abdulazeer is currently in his penultimate year of a water resources and environmental engineering program. His work experience as a guest technical author includes the likes of Auth0, LogRocket, Okteto, and TestDriven.

I want to thank Allah (SWT) for his unending grace, and Sebastián Ramírez for creating FastAPI. I want to thank Precious Ndubueze for introducing me to FastAPI and insisting I get acquainted with the framework, and Bolaji Olajide for helping me by reviewing the first chapters. Lastly, I also want to thank every one of my close associates, especially my uncle, Tosin Olayanju, for their support throughout the development of this book – I am incredibly grateful and honored.
